

**Amendment to the Specification:**

At page 1, line 2, please insert the following:

**Cross Reference to Related Applications:**

5 This application is related to the following co-pending applications, each assigned to the Assignee of the present invention.

Application No. 09/749,279, filed December 26, 2000, entitled "Apparatus for Holding an Optical Element";

61  
10 Application No. 09/749,281, filed December 26, 2000, entitled "An Apparatus and Method of Using Flexible Printed Circuit Board in Optical Transceiver Device (as amended)";

Application No. 09/749,282, filed December 26, 2000, entitled "Attenuator and Conditioner";

Application No. 09/749,283, filed December 26, 2000, entitled "Optoelectronic Mounting Structure";

15 Application No. 09/749,284 filed December 26, 2000, entitled "Optical Transmitter, Receiver or Transceiver Module";

Application No. 09/749,285 filed December 26, 2000, entitled "Housing and Mounting Structure"; and

20 Application No. 09/749,286, filed December 26, 2000, entitled "Optical Power Control System".
